Our Children Are Our Future

Education is the Key

Four County School Boards Association

THE EDUCATION OF OUR CHILDREN IS THE KEY TO OUR NATION'S FUTURE

School boards in the Four County region of New York State (Ontario, Seneca, Wayne and Yates Counties) are committed to providing high quality education for all students. The success of this effort is dependent upon a strong, supportive partnership between local communities and the state and federal governments. Most funding for education comes, appropriately, from state and local sources. The federal government's role has historically been to supplement these resources with funding targeted toward specific needs, particularly those that provide equal opportunity and access, and are important resources in support of public education.

An educated citizenry is essential if we are to retain our position as a global leader. To prosper, we must provide the opportunity for all children to learn and be prepared to make meaningful contributions to our nation's success. Reliable and sustained financial support for our public schools, where the majority of our nation's children are educated, is critical. Our schools continue to experience dramatic increases in the cost of health insurance premiums, pension contributions, and services for children with disabilities. We must provide intervention services for "at-risk" students and expanded opportunities for higher achievers. Meeting unfunded or underfunded mandates places an additional demand on local district resources and a burden on local taxpayers. Our New York State districts have the added constraint of budgeting within the tax cap imposed by the Governor and the Legislature. All of these factors have a greater impact on the low-wealth/high-need school districts that make up the Four County area.

We must continue to invest in our future by providing quality public education. Congress must focus on a long-term solution to funding education in America and oppose any policies that would weaken our public schools. This will help insure our students' success in the global marketplace and also help strengthen America's economy. Necessary funding must accompany all federal mandates. Past promises must be kept!
